Diamond Knowledge Base

Centurion Version History 1.22

Build #0001 06/23/04	Added support for the "Parks" version of the software. This lower cost version is identical to CC, except all features and functions not related to Volume (Count) data have been removed.
Build #0001 06/28/04	Added support for the "Field" version of the software. This version has no database support and is intended for field user downloading and traffic counter monitoring & setup.
