

## Diamond Knowledge Base

### Centurion Version History 1.50

- Implements a new licensing system and includes these additional changes:

Build #0001 02/04/2021	Complete redesign of the license system.
Build #0002 02/17/2021	Fixed a licen issue when the date format changed to "dd-mm-yy". Added check to prevent V1 (Kronos/interval) input files from going backwards in the Date/Time. If the new data Date/Time is less than 2010 it will use the previous data Date/Time (+Current Interval) instead during importing)
Build #0003 02/19/2021	Fixed date error with Gold
Build #0004 04/28/2021	Fixed a problem importing PerVehile data in ".int" format causing vehicles at end of first day to pile into last interval
